DASH
Catalyst Kit

THIS KIT INCLUDES

- Bullseye DASH
- RJ45 to DB15 Cable Adapter + USB Power Cable
- 0.1 Torr Capacitance Manometer
- 10 Torr Capacitance Manometer
- Fittings
    - KF16 + KF25
- Batteries

FEATURES

- Simple way to validate vacuum measurement tools used in semiconductor + manufacturing
- Includes everything needed to verify accuracy of tools during tool matching
- Portable and user friendly
    - Compact for high volume + complex manufacturing floors

BULLSEYE DASH

- D - Direct Measurement of Capacitance Manometer
- A - Active Monitoring
- S - Scientific Applications
- H - Historical Data Tracking, High (Vacuum)

APPLICATIONS

- Vacuum validation of gauges, displays, pumps and tools
- Tool matching
- Field calibrations of thermal gauges
